

# More Than Money: What Makes a Retirement "Significant?"

As we move toward, and into, our retirement years, we are given a unique opportunity to grow spiritually and intellectually; to weave together the threads of a lifetime, to discover a pattern of meaning and purpose.

Join us for an exploration of the personal potential contained in preparing for and living into these years. Our presenters will be Rev. Jerry P. Haas and Jack Hansen, authors of the book, *Shaping a Life of Significance for Retirement*.

*Copies of the book will be available for purchase.*
